ABOUT ME

My passion for web development began as a teenager, tinkering with HTML and imagining a day when I could build full scale applications. Now, as a graduate of Web Development Cohort 40 at Nashville Software School, I am poised to build the applications I always dreamed of and provide solutions to real world problems. My ultimate goal is to use these skills that I have learned to improve the lives others.

CLIENT SIDE CAPSTONE

APPARTY - REACT

A socially distant birthday tracking and celebration app that allows users to log on and create a birthday event for a friend, invite and notify other friends of said event, and allow those friends to leave toasts and upload images for the guest of honor.

- React.js for UI functionality.
- React Router DOM for routing page components.
- Cloudinary to host images.
- Bootstrap and reactstrap for styling.
- Firebase for persisting data.
- Custom Node.js API for email notifications

https://socially-distant-birthday.web.app

SERVER SIDE CAPSTONE

VIRTUMARKET - REACT, DJANGO REST API

A virtual farmers' market app that aims to connect middle TN shoppers seeking locally sourced goods with the merchants who offer them.

- Djanog REST API to expose endpoints and serve up resources.
- React client to request and consume the API.
- React Router DOM for routing page components.
- Bootstrap and reactstrap for styling.
- Cloudinary for image uploading and hosting.

EDUCATION

Nashville Software School
Full Stack Software Developer | 2020 - Present
Nashville, Tennessee

Southern Illinois University Carbondale
BA Music | 2011 - 2014
Carbondale, Illinois

PROFESSIONAL EXPERIENCE

Full Stack Software Developer
Nashville Software School | January 2020 - Present
Immersive full stack software development bootcamp.
Creating single page front-end applications using HTML, CSS/SCSS, JavaScript, and React.js.
Building full CRUD applications in individual and team environments.
Working with development teams in remote settings via Zoom.
Using third party APIs to handle photo uploads and to persist data during client side studies.
Utilizing Git and GitHub for version control.
Utilizing Python/Django and SQL to build robust APIs.

Projects:

Group Project: Le Baguette - *HTML5, CSS3/SCSS, ES6 JavaScript*
https://la-baguette-cc.web.app/
Worked with a team of three other developers to create an app allowing a restaurant to track its staff, menu, ingredients, and reservations.
Built and implemented full CRUD on the restaurant staff section of the app, and adding functionality that allowed users to filter staff members by job type.

Personal Project: Mushroom Picker - React, CSS/SCSS
https://mushroom-picker-1d9ca.firebaseapp.com/
Implemented asynchronous events to render additional components based on whether the user picked a dangerous mushroom, or a magical mushroom.
Used reductive logic to only display unique mushroom types in the user basket, and to display quantity of each unique type.

Accounts Receivable Specialist
Yusen Terminals, LLC | July 2018 - June 2020
YTI operates marine cargo terminals and provides stevedore and terminal services to container shipping lines.
Prepared, reviewed, and distributed weekly account statements to clients.
Posted customer payments by recording ACH, check, and credit card transactions.
Verified validity of customer disputes and facilitated adjustments to invoices accordingly.
Placed collection calls to clients when invoices became delinquent.

Accounting Coordinator
URP Music Distributors, LLC | September 2017 - July 2018
A music distributor and one-stop wholesaler, specializing in vinyl records, currently representing over 210,000 different titles in its catalog.
Maintained both accounts payable and accounts receivable records, making database and general ledger entries to reflect transactions.
Collected and organized financial documents required for taxes and audits.
Ensured all changes to accounts are accurate and legitimate.
Facilitated communications regarding accounting between company, clients, and vendors.

Shipping Clerk
URP Music Distributors, LLC | February 2015 - September 2017
Pulled orders, prepared invoices and necessary documents according to preferred shipping methods.
Calculated weight and costs, and prepared packages for shipment.
Received shipments, verified order accuracy, and ensured that the items reached the correct storage location and were reflected in inventory.
Trained new employees.
